

Art. 530

Saddle Support Bracket (Electro-Galvanised)

Application/Advantages

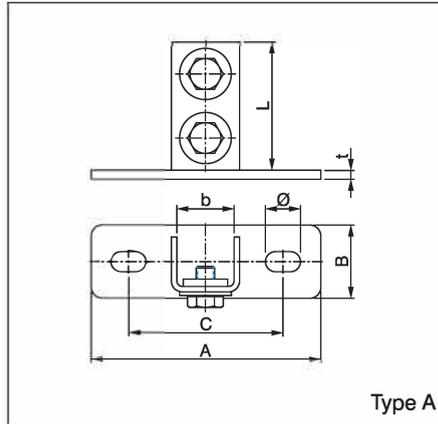

- Safety mechanism with pre-assembled spring clamping bolts.
- Solid and fast connecting element for load-bearing constructions.
- Simple installation by inserting the mounting channel into the saddle support bracket.
- Oblong holes in the base plate allow for simple alignment of the flange.

Technical Data

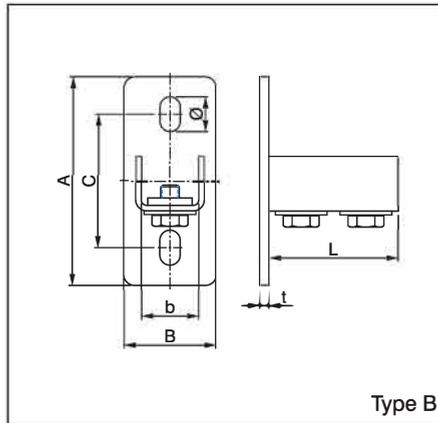

- **Material:**
Steel 1.0332 acc. to DIN EN 10111
- **Zinc plating:**
Electro zinc plated, 8–12 µm

Installation

- Insert and screw the mounting rail in the saddle flange.
- Excellent fixing possibilities using suitable anchor.
- Excellent height adjustment using slots in the base plate.

Type A

Type B
